HIKE DISTANCE: 9.5 miles, Out and Back

ELEVATION/GAIN: Start / Highest /Gain: 5300' / highest 5400' / **Gain 1200'**

PACE: Fast (Fewer stops, faster pace)

TRAIL CONDITIONS: Stream crossings with mud. Rock hopping where water crosses the trail. (Poles recommended for this hike). Fairly robust creek crossing with a jump to the uphill trail. Plan for hot, sunny conditions for most of the trail – bring plenty of water, hat, sunscreen. As this is one of the first hikes of the season at elevation, please consider that we will have about 1200' of elevation gain at a fast pace around the 5300' elevation level.

DESCRIPTION: The first part of the hike is through trees, ferns and beautiful wildflowers. We should see lupine, Indian Paint Brush, Snowflowers, and Harlequin Lotus. Come out of the trees at the Pioneer trail and stop for photos at the Lake Spaulding overlook. Continue hiking over sunny, beautiful dirt trails and granite surfaces. Lunch at Fordyce Falls on granite rocks with beautiful views of rushing Fordyce Creek. Hike back along the same trail.

FACILITIES: Two pit toilets at Sierra Discovery Trail parking lot – 3 miles before the trailhead.

DRIVE TIME/MILES: Approximately 75 minute drive and 65 miles.
